SUMMER CAMP PROGRAMME

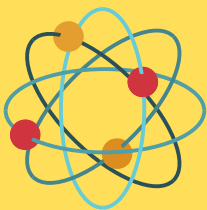

1. Science / Robotic workshop

BY STEAMPUNKKIDS.BE

MINDSTORMS EV3

Students design and build programmable robots using high quality motors, sensors, gears, wheels, axles, and other technical components. By using hands-on robotics, students will gain a better understanding of how technology works in real world applications.

The solution enables students to understand and interpret two-dimensional drawings to create three-dimensional models; build, test troubleshoot and revise designs to improve robot performance; Gain practical, hands-on experience using mathematical concepts such as estimating and measuring distance, time and speed.

2. Upcycling workshop

BY 121 COLLECTIVE

UPCYCLING

The workshop will include a series of small built interventions within the school. These interventions can include elements such as urban furniture, a bird house and a bug hotel and will focus primarily on the use of recycled/reused materials.

The focus of this workshop will be based on the following points:

- Learning to learn: manage one's own learning, either individually or in groups
- Social and civic competences: ability to participate effectively and constructively in one's social and working life
- Sense of initiative and entrepreneurship: ability to turn ideas into action through creativity, innovation and risk taking

The upcycling workshop will also be a tool which teaches the students several life skills such teamwork, organization, decision making and hands-on making skills.

UPCYCLING WORKSHOP
EEB4 Laeken, Belgium.

A. Aqua Park

WATER DAY

Each group will go with 2 instructors to an aqua park.

Bathing suits:

Wearing a swimsuit is mandatory for each student. Only authorized swimsuits:

B. Indoor adventure parks

KOEZIO

You are a special agent, but you don't know this yet. Today we propose that you undertake a 90 to 120-minute full team training. No need to be sportive or first in the class: according to your secret file you are perfectly capable of succeeding either mission you'll choose.

You are going to negotiate a course going through 4 districts. At each stage of this course you must give of your best: reflection, resilience under stress, team spirit...Don't worry: according to our evaluations you have a high chance of surviving any of these missions.

C. Kayaking

LESSE KAYAKS

The 4 groups of the summer camp 2019 will all go together by bus to Dinant accompanied by six animators.

We will do the small descent (14KM) which crosses a beautiful wooded nature, where castles, rocks and pebble beaches alternate. Two roadblocks to cross will guarantee fun and thrills for all students.

Bathing suits:

Wearing a swimsuit is strongly recommended, especially if the weather forecast is good.

!! No school buses that day. Parents are invited to come and pick up their children around 6:00 PM at the school.
